

the most?
* Are these in your top 10?
* Were they listed on your "worst" list?

How can you use other strengths to manage those you over/inappropriately use?
* Include: top ones to leverage, lower ones to practice and ones to practice internally

West Tennessee Regional Training Center

317 Denmark Jackson Rd.
Denmark, Tennessee 38391

Welcome!

Welcome to the West Tennessee Regional Training Center (WTRTC). My name is John Mehr and I am the Sheriff of Madison County, Tennessee. Our goal at the WTRTC is to provide top tier training for all first responders including Law Enforcement, Fire, Rescue, Corrections, Emergency Medical, and related Mental Health instruction, as well as provide a number of certification courses. We are also partnering with Universities to provide accredited College courses in these related fields to enhance the attendees ability to obtain a degree if so desired. We will partner with local industry to provide related training in a professional environment in this state of the art facility. Please check our website (wtrtc.com) often as we will continuously update this site with the latest training information. Thank you for your interest in the WTRTC.

A handwritten signature in blue ink that reads "John R. Mehr". The signature is fluid and cursive.

Training Center Location

TRAINING CENTER LOCATION

The Training Center and Madison County Sheriff's Office is a facility owned by Madison County. The center was once a public school, valued at over \$7 million, housed over 600 students and sits on 26 acres in the rural Madison County community of Denmark.

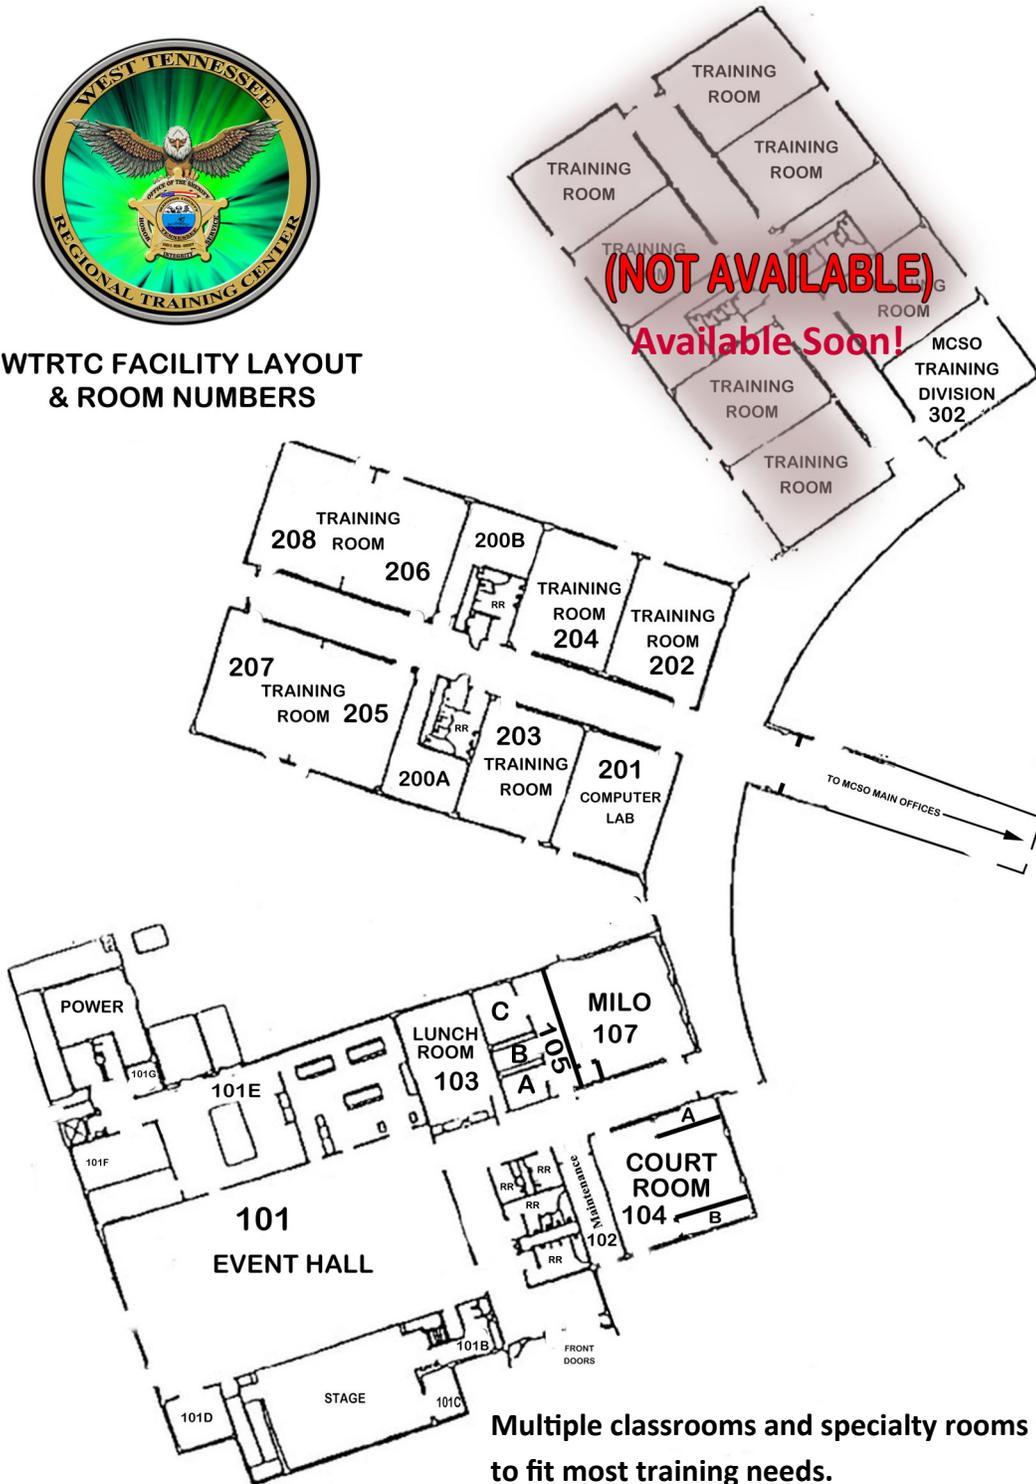

Regional 1st responder and Industrial Training Center in Jackson that will benefit the rural communities of West Tennessee
Purpose: To build a quality training center capable of serving West Tennessee's Governmental and Industrial training needs.

- ♦ Certified Law Enforcement Officers
- ♦ Correctional Officers, County, State, Federal
- ♦ Fire Fighters
- ♦ County Government Employees
- ♦ Industrial Partners for employee training

Multiple classrooms and specialty rooms designed to fit most training needs.

Law Enforcement Mental Health Learning Sites

Jurisdictions around the country are exploring strategies to improve the outcomes of encounters between law enforcement and people who have mental illnesses. As a growing number of communities engage in the development or enhancement of their specialized policing responses (SPRs) (including co-response, CIT, and other models) or their overall police-mental health collaboration (PMHC), many struggle with the program design process, and are unsure how to tailor models from other jurisdictions to their own distinct problems and circumstances.

In an effort to expand the knowledge base for law enforcement agencies interested in starting or enhancing a PMHC, the Council of State Governments (CSG) Justice Center, with assistance from a team of national experts and the U.S. Justice Department's Bureau of Justice Assistance (BJA), selected ten police departments to act as national law enforcement/mental health learning sites. Located across the country, these learning sites represent a diverse cross-section of perspectives and program examples, and are dedicated to helping other jurisdictions improve their responses to people who have mental illnesses. Selected were: Arlington (MA) Police Department, Gallia, Jackson, Meigs Counties (OH) Sheriffs' Offices, Houston (TX) Police Department, Los Angeles (CA) Police Department, **Madison County (TN) Sheriff's Office**, Madison (WI) Police Department, Portland (ME) Police Department, Salt Lake City (UT) Police Department, Tucson (AZ) Police Department, and University of Florida Police Department.

EVENT HALL

ROOM 101

The Event Hall will comfortably seat 300+ with three large screens and full PA system at the stage. Pictured above is the Tennessee Department of Correction's Spring Education Conference. Attendees came from all over the state with several vendors present as well. Full kitchen available!

ROOM 107

The MILO Range Theater system provides you with a fully immersive training environment. With the enhanced field of view that Theater offers, you can increase trainee realism and offer true to life training scenarios. The MILO Range Theater is interactive from all directions, allowing trainee responses to multiple threats and applications of proper tactics simultaneously. The system is operated by a single instructor using either a touchscreen monitor or wireless tablet; significantly reducing the instructor resources needed.

Theater 180

The Theater 180 system offers a 3-screen configuration that provides enhanced field of view for even more realism and effectiveness. Theater 180 includes:

- Complete system with control station
- 3 standard HD projectors
- 3 laser projection screens
- Surround Sound system
- 8-lane laser hit detection
- 2 trainee weapon sets – firearm lasers, OC lasers & Flashlights
- Scenario authoring
- Cabling & mounts for all components

A mock trial is a simulation or enactment of a judicial proceeding. Mock trials provide students with knowledge of the judicial system, legal process, and courtroom procedures. Mock trials help to: develop students' questioning skills, critical thinking, and oratory skills; demonstrate the roles of various actors in the legal system; and provide the class with exposure to legal resource people, such as judges, attorneys, and law school students. Mock trials may be based on historical events, cases of contemporary interest, school events, or hypothetical situations and fact patterns. The format of a mock trial can be either formal or informal. The formal vs. informal format depends on the objectives of the activity, the time available, and the students' skills and prior experiences.

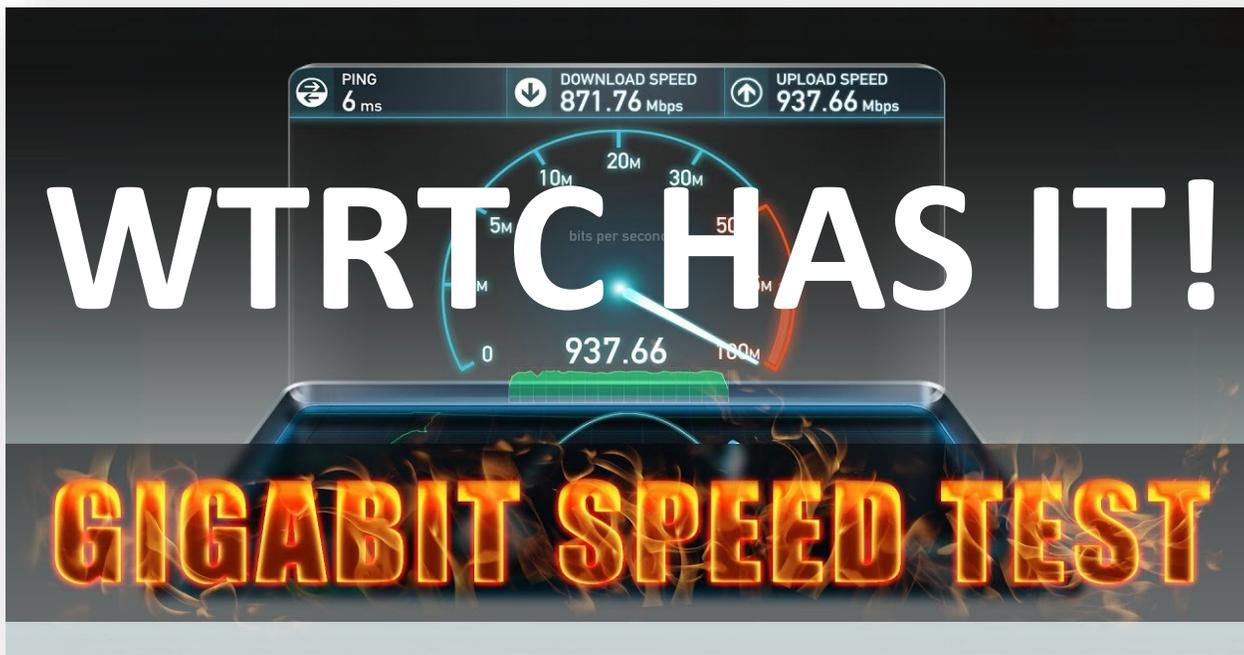

A 28 station computer lab with instructor station is available for all types of digital training. Both online and offline training can be achieved with this state of the art computer lab.

Mock Jail Cells used for training Detention Specialists

Gigabit internet is the next generation of broadband internet service which is typically delivered over fiber optic lines and provides speeds of 1,000Mbps, which is also referred to as “1 Gbps” or “Gigabit” internet. To be clear, this is the speed of the WAN connection provided from the ISP to your customer’s house, not just the Gigabit Ethernet run over the Cat5e or Cat6 within the home. What this means to you is that you will have an internet connection that is 100 times faster than today’s average broadband service and that is a great benefit to all officers and instructors! No buffering on streaming videos and very fast uploads and downloads for any demanding need.

HOW FAST IS GIGABIT INTERNET?

- ♦ **100x faster than today’s average broadband connection**
- ♦ **Download 100 photos in 3 seconds**
- ♦ **Download 100 songs in 3 seconds**
